# PHYSICIAN'S REPORT PACKAGE

### This package contains:

- Physician's Report for Residential Care Facilities for the Elderly (RCFE) (LIC 602A)
- Standing orders for P.R.N. Medications (meaning "when necessary" from the Latin pro re nata).
- Physician Orders for Life-Sustaining Treatment (POLST)

### Before you give this document to your physician:

- Complete Page 1, Section II (Resident/Patient Information)
- Complete Page 1, Section III (Authorization for Release of Medical Information)
- Discuss your wishes with loved ones and your health profession, have your physician completed the POLST. This is needed even if you have an Advanced Directive on file. The Advanced Directive outlines your desire for future treatment; the POLST provides orders for the physician so your wishes can be carried out during emergency treatment.

**THE COMPLETED PHYSICIAN'S REPORT MUST BE ACCOMPANIED BY A  
CURRENT MEDICATION LIST SIGNED BY THE PHYSICIAN.**

Please return the completed Physician's Report Package to:

**Directions for Health Care Provider****Completing POLST**

- Completing a POLST form is voluntary. California law requires that a POLST form be followed by health care providers, and provides immunity to those who comply in good faith. In the hospital setting, a patient will be assessed by a physician who will issue appropriate orders.
- POLST does not replace the Advance Directive. When available, review the Advance Directive and POLST form to ensure consistency, and update forms appropriately to resolve any conflicts.
- POLST must be completed by a health care provider based on patient preferences and medical indications.
- A legally recognized decisionmaker may include a court-appointed conservator or guardian, agent designated in an Advance Directive, orally designated surrogate, spouse, registered domestic partner, parent of a minor, closest available relative, or person whom the patient's physician believes best knows what is in the patient's best interest and will make decisions in accordance with the patient's expressed wishes and values to the extent known.
- POLST must be signed by a physician and the patient or decisionmaker to be valid. Verbal orders are acceptable with follow-up signature by physician in accordance with facility/community policy.
- Certain medical conditions or treatments may prohibit a person from residing in a residential care facility for the elderly.
- If a translated form is used with patient or decisionmaker, attach it to the signed English POLST form.
- Use of original form is strongly encouraged. Photocopies and FAXes of signed POLST forms are legal and valid. A copy should be retained in patient's medical record, on Ultra Pink paper when possible.

**Using POLST**

- Any incomplete section of POLST implies full treatment for that section.

**Section A:**

- If found pulseless and not breathing, no defibrillator (including automated external defibrillators) or chest compressions should be used on a person who has chosen "Do Not Attempt Resuscitation."

**Section B:**

- When comfort cannot be achieved in the current setting, the person, including someone with "Comfort Measures Only," should be transferred to a setting able to provide comfort (e.g., treatment of a hip fracture).
- Non-invasive positive airway pressure includes continuous positive airway pressure (CPAP), bi-level positive airway pressure (BiPAP), and bag valve mask (BVM) assisted respirations.
- IV antibiotics and hydration generally are not "Comfort Measures."
- Treatment of dehydration prolongs life. If person desires IV fluids, indicate "Limited Interventions" or "Full Treatment."
- Depending on local EMS protocol, "Additional Orders" written in Section B may not be implemented by EMS personnel.

**Reviewing POLST**

It is recommended that POLST be reviewed periodically. Review is recommended when:

- The person is transferred from one care setting or care level to another, or
- There is a substantial change in the person's health status, or
- The person's treatment preferences change.

**Modifying and Voiding POLST**

- A patient with capacity can, at any time, request alternative treatment.
- A patient with capacity can, at any time, revoke a POLST by any means that indicates intent to revoke. It is recommended that revocation be documented by drawing a line through Sections A through D, writing "VOID" in large letters, and signing and dating this line.
- A legally recognized decisionmaker may request to modify the orders, in collaboration with the physician, based on the known desires of the individual or, if unknown, the individual's best interests.

This form is approved by the California Emergency Medical Services Authority in cooperation with the statewide POLST Task Force.
