Notice to Residents to Self-Isolate 3/16/2020 11:00AM

Dear St. Paul’s Residents,

Your health and well-being are our top priorities. Therefore, in accordance with Governor Newsome’s request that individuals over 65 years of age and/or those with health conditions, you may choose to self-isolate.

St. Paul’s urges you not to leave the building, other than to take a walk outdoors, until further notice. Specifically, do not leave the building to meet with others; if you do, you will be subject to a full health screening for re-entry.

Also, please consider eating in your room if you have been out in the community. When in the dining-room or lounges, maintain a distance between yourself and others.

We appreciate your understanding during this time. We have made this decision to better protect your safety and well-being as well as the well-being of the seniors we serve. Your health is our primary concern, and we are in constant contact with our medical directors, county, state, and national health agencies.

Please do not hesitate to contact us for questions or concerns at behealthy@stpaulseniors.org or call us. Hot Line: 619-271-6200.

Thank you,

Cheryl Wilson, RN, CEO
